

Promotional Offer One FREE Solar Cleaning

FOR A LIMITED TIME

***For A Limited Time We Are Offering One FREE Solar Cleaning
When You Provide Three Customer Referrals***

Pollution, traffic dust, leaves and even bird droppings contribute to preventing sunlight from reaching the solar cells in your solar panels.

The more dirt – the lower the amount of electricity they will produce.

While many factors affect how much electricity your solar panels will produce – dirty solar panels can be one of the biggest and easiest to fix

Experts agree that dirty solar panels don't produce as much power as clean panels.

That loss may range as high as 25% in some areas according to the National Renewable Energy Laboratory. Individual dealers have reported losses as high as 30% for some customers who failed to ever clean their panels.

***In Addition to the FREE Cleaning we will Send You \$500
For Any Referral Who Purchases A Solar Installation,
That's A Total Value of \$2,000***

All three leads must be verified homeowners who currently do not have a solar array installed and can be contacted within 30 days. This is a limited offer and may be canceled at any time.
